Product Title: 0.25m AV Snap-In VGA Module 25 x 50mm - Socket to Socket - White

Product Code: 20-0010 | Brand: **connektgear**

DESCRIPTION

Our VGA snap-in module is designed for legacy equipment, transmitting an analogue signal. The module uses high grade triple shielded coaxial cable, very important to reduce the potential of loss or interference especially with an analogue signal. For superior durability, the connection is bolted and secured with an adhesive-fixed locking nut to prevent degradation over time. The back of the module also incorporates elongated retention clips specifically designed so the module cannot be pulled out when removing the front-end cables from the faceplate.
